

Lecture: Wednesday | July 4th, 2018 | 12:30 p.m. – 13:00 p.m.

Robbie Bouschery
PIRATE.global

Best Practice: Innovation

Lecture Title:

“In-Person Networking - How to create meaningful matchmaking through digital tools.”

Content of the Lecture:

Since 2010 we have been running tech and entrepreneurship conferences with the main focus to bring the right people together and enable meaningful connections among them. While the in-person meetings are at the core of our events, we have experimented with a variety of digital tools to make these meetings and connections as smooth and natural as possible.

CV of Robbie Bouschery

Robbie Bouschery is the Managing Director of PIRATE.global, an event startup company based in Cologne, responsible for some of Europe’s most recognized tech and startup conferences including PIRATE Summit, EXECfintech/insurtech and the global event series Startup SAFARI. Robbie combines a formal education in business administration and economics with a passion for technology. He previously worked as a software product manager for Siemens and ran the non-profit organization behind the world’s largest student-run business convention World Business Dialogue, of which he is still an advisory board member. He regularly moderates and speaks at technology conferences across Europe.
